

KEYSBOROUGH PRIMARY SCHOOL

FUTURE MAKING FOR
EVERY STUDENT

Welcome to our KPS slide school tour 2020

In the following photos and text we hope to give you some insights into Keysborough Primary School.

The tour takes the same format a walking tour would on site.

We start at the front of the school and walk to the Theatre, Art Room and the Gym / Hall before arriving at the Agora open play and gathering space.

The Theatre/Performing Arts

Our theatre space incorporating a stage area, retractable seating and a fully mirrored wall for dance rehearsals. Upstairs, we have a fully functional production and lighting room whilst out the back there are costumes and props for drama sessions and to facilitate whole school productions.

All students access the performing arts program.

Performing arts provide students with opportunities to express themselves as they build confidence in their individual performances.

Our fully equipped gymnasium is beautifully maintained and offers our students the full range of sporting and fitness experiences.

Combined with our massive oval space, our students are immersed in a fully comprehensive Physical Education program conducted by a specialist teacher.

Assemblies are held in the hall every Friday afternoon and family and friends are encouraged to attend.

Student awards are announced and we are able to share those special moments with the entire school

The Gym / Hall

The Art Room

Our Art room is bright and beautiful and well resourced. Our students learn in an environment that encourages and allows them to explore and express their imaginings.

The Arts specialist teacher supports students to experiment with all mediums in order to express themselves visually.

Our students demonstrate their learning through stunning and evocative pieces of individual artworks.

The Agora

A place to meet, play and enjoy the fresh air and sunshine.

Its also the space used for our End of Year Concert.

The Oval

Our oval is pristine and beautifully maintained. During the warmer months, most physical education classes revolve around athletics and the many sporting skills required to achieve success in each individual event.

School House Sports are a great day enjoyed by students, staff and the school community. Families gather for the day, bringing a picnic lunch with them, whilst the students compete against each other to earn points for their house teams. A great day is had by all.

Our Playgrounds

There are many playgrounds across the entire school site. All available to different levels of students.

Children also have two large sandpit play spaces to enjoy creative play.

Our classrooms

KPS classrooms are full of bright colours, engaging displays and the joyful sounds of students happily learning. Each room is equipped with the latest technology, a fully interactive white board and sets of iPads or Chromebooks.

Every learning space has its own library full of age appropriate reading, both fact and fiction and a quiet space to enjoy silent reading.

KPS Buildings and grounds

Around KPS

DIGITECH

Our DigiTech room is well equipped with an individual work stations for each student.

With ergonomic seating, our students are able to learn in a comfortable, modern and fully interactive environment.

Children are supported in their learning by the Digitech specialist teacher.

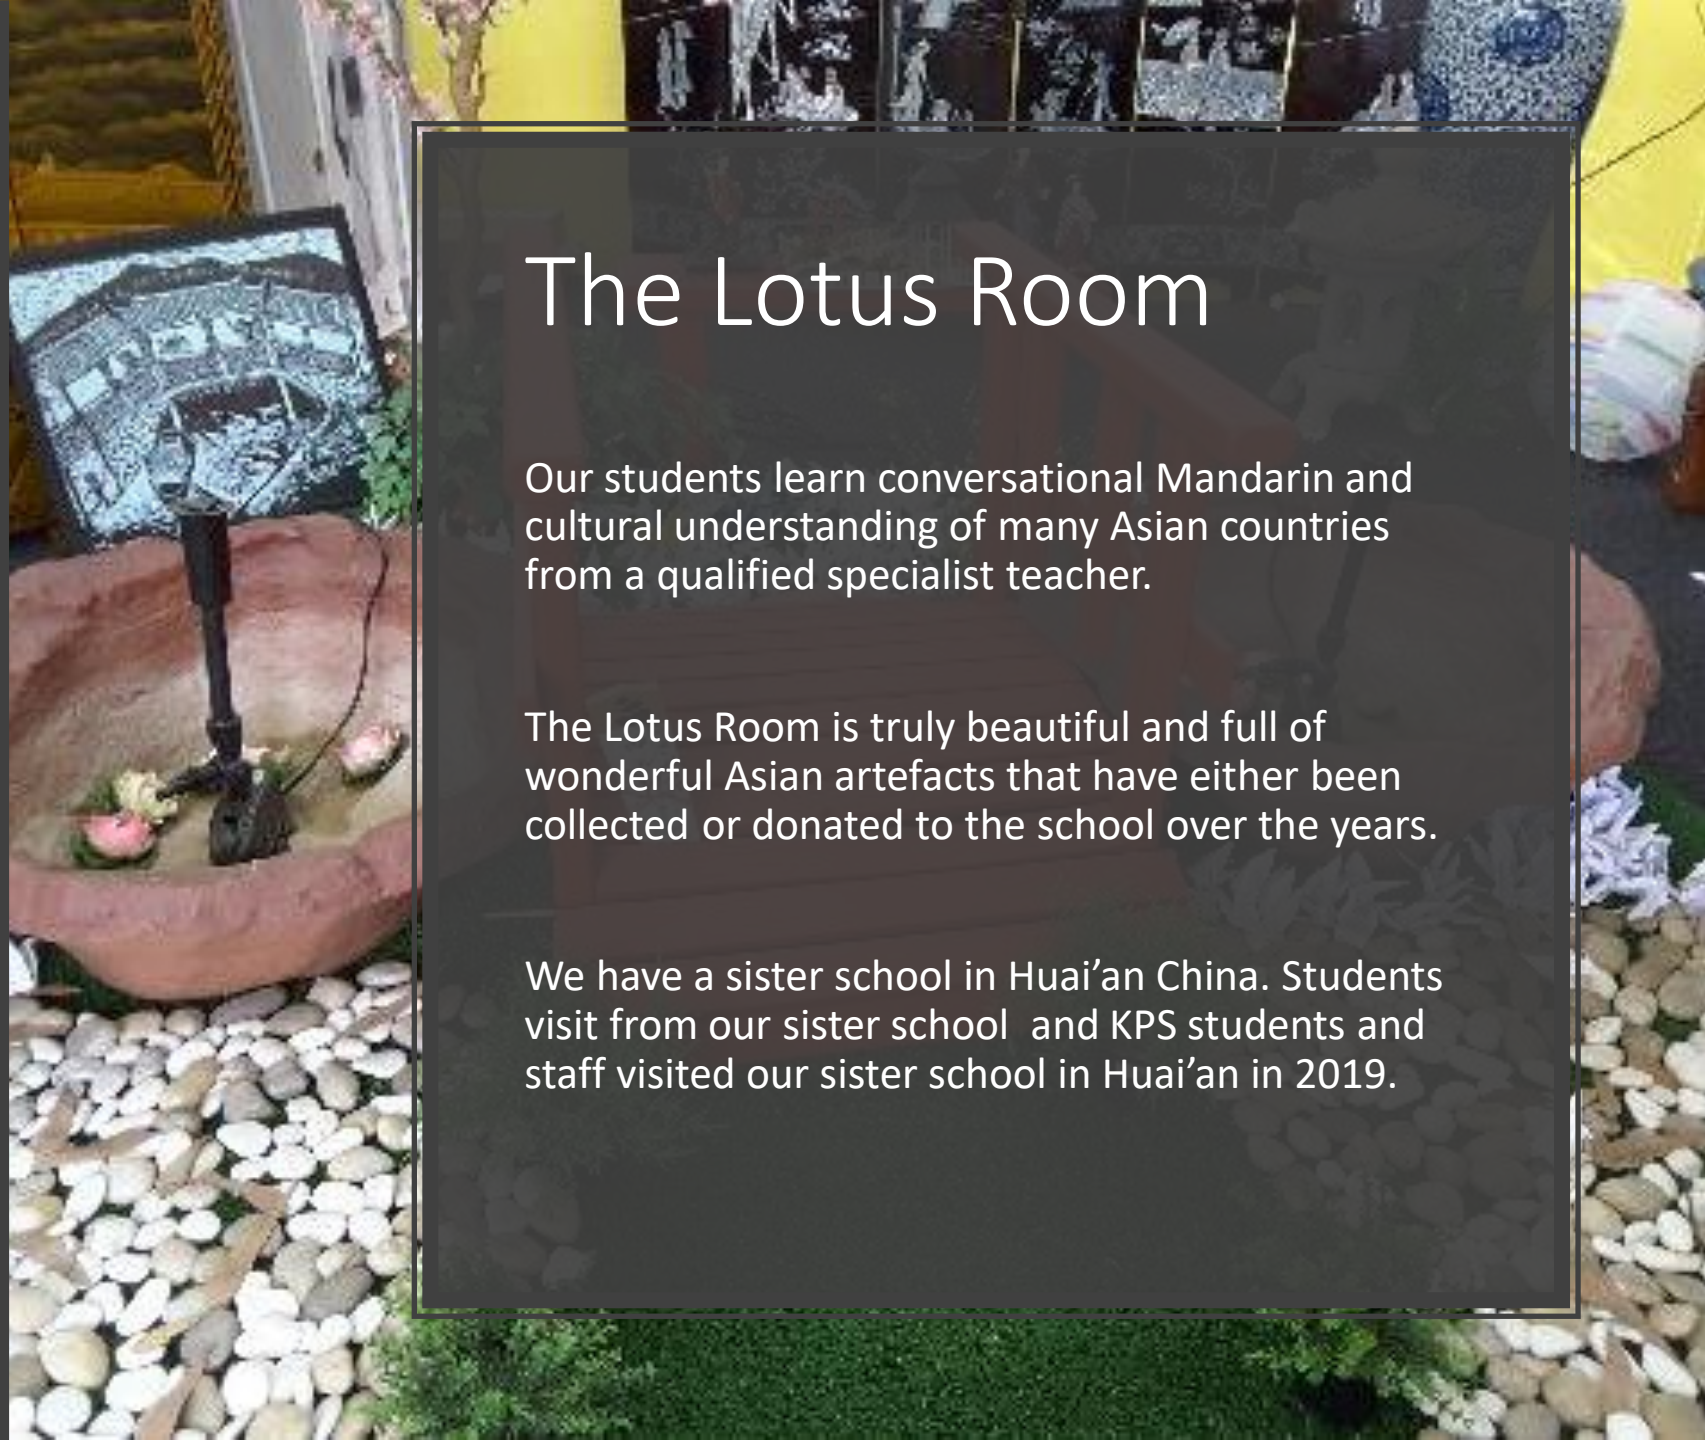

The Lotus Room

Our students learn conversational Mandarin and cultural understanding of many Asian countries from a qualified specialist teacher.

The Lotus Room is truly beautiful and full of wonderful Asian artefacts that have either been collected or donated to the school over the years.

We have a sister school in Huai'an China. Students visit from our sister school and KPS students and staff visited our sister school in Huai'an in 2019.

Our School Garden/Sustainability

Our school vegetable garden is run and maintained by the students and compliments the sustainability program in Years 3 & 4.

Students plant and tend the garden according to the season and the produce is then able to be used or shared with the students.

Music lessons

Music lessons are offered on a weekly basis in piano, guitar and keyboard. Fully qualified instructors provide instruction to any student who wishes undertake musical studies in their instrument of choice.

The sensory room

Created late in 2019 this room and landscaping are designed to support students sense of calm.

The sensory room is a therapeutic space with a variety of equipment that provides students who have special needs with personalized sensory input. It helps these children calm and focus themselves so they can be better prepared for learning and interacting with others.

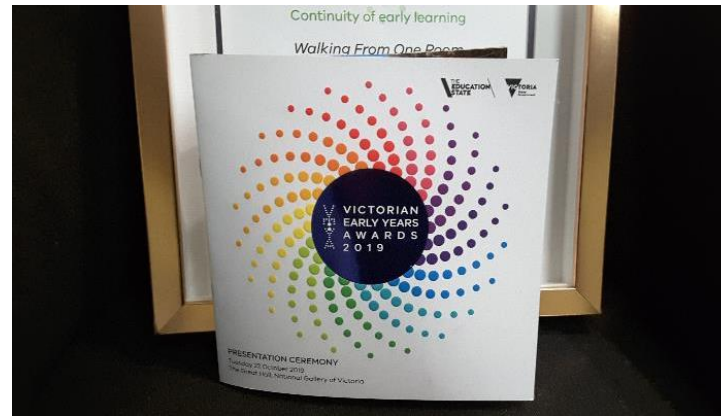

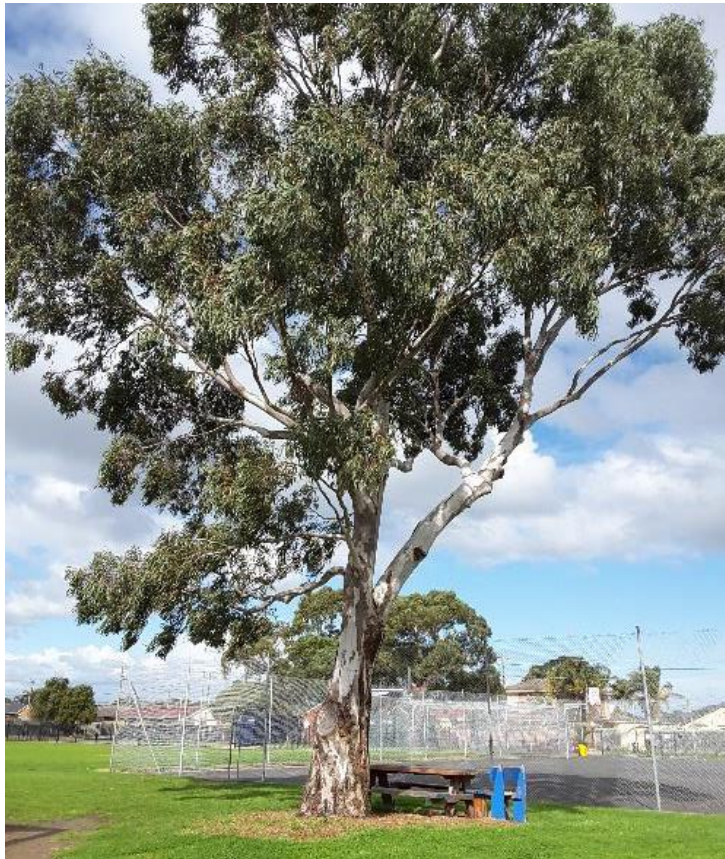

The Cottage

A Chaplin works to address the issues experienced by some of our children.

Whether it's a school related issue, or one from home, our Chaplin is onsite 2 days a week to assist our children and their families to work through their concerns.

Site of our new Kindergarten

In 2022, KPS will open its very own Kindergarten. Our new Kindergarten is scheduled to commence building in the near future and will support our potential students as they transition between Kindergarten and school.

KPS, along with Darren Reserve Kindergarten was awarded The Ministers Award at the Victoria Early Years Awards in 2019 formally recognizing the wonderful work being undertaken in Early Childhood Learning.

Beyond the existing basketball courts on our site, you can catch a glimpse of the land designated for the new kindergarten.

Breakfast Club

Breakfast Club is run every school morning between the hours of 8.30am and 9.00am.

Everyone is welcome and a balanced and nutritious breakfast is provided free of cost to all students.

Breakfast is an important start to a child's day and provides them with the energy they need in order to learn.

The Canteen

Parents and carers pre-order from a selection of morning break and lunch packs using the Qkr app.

These are delivered to classrooms to students.
